EDUCATION

S.B vakil English Medium School | Khambhat

October 2008 - June 2021

Madhuben And Bhanu Bhai Patel Institute of Technology | Vidhya Nagar

June 2021 – May 2025

- *Bachelor of Engineering (B.E.) in Information Technology in Information Technology | CGPA: 7.83*

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, PHP, HTML, CSS
- **Full-Stack Development:** React.js, jQuery, Node.js, Express.js, Laravel, MongoDB, MySQL, Firestore
- **Libraries & Tools:** Socket.IO, WebRTC, JWT, Pandas, NumPy, Scikit-learn

WORK EXPERIENCE

Axe Force Technologies LLP (Internship) - Full Stack Developer Intern

Ahmedabad | January 2025 – May 2025

- Designed a WebRTC-based video conferencing solution compatible with shared hosting environments, eliminating the need for VPS or root-level server access.
- Built core real-time communication features using Laravel, PHP, JavaScript, Firestore, and WebRTC, enabling camera/microphone control, screen sharing, live chat, polls, and an AI chatbot.
- Admin tracking dashboard to monitor all in-meeting actions in real time and host controls for muting or disabling remote participants.
- Adopted clean code best practices to ensure maintainable, well-structured, and scalable codebases.

Jinarth Infotech (Internship) - Web Development Intern

Anand | May 2024 – June 2024

- Created a fully functional e-commerce website with product listings, shopping cart, checkout, and order tracking using HTML, CSS, JavaScript, and PHP.
- Built an admin panel to manage products, orders, and user accounts, aligning features with real-world industry standards.
- Gained practical experience delivering client-ready web features within a professional team environment.

PROJECTS

Video Conferencing Solution

- Engineered a browser-based video conferencing app supporting camera/microphone toggle, screen sharing, polls, Q&A, live chat, and an integrated AI chatbot during calls.
- Used WebRTC for peer-to-peer audio/video streams, ensuring low-latency and secure communication without third-party conferencing services.
- Added role-based host controls and a real-time admin activity log for complete meeting oversight.

Doctor Appointment & Queue Management System | [GitHub](#) | [Live Demo](#)

- Built a full-stack MERN healthcare platform with appointment booking, doctor schedule management, and patient tracking via role-based dashboards (Patient, Doctor, Admin).
- Implemented real-time patient queue management using Socket.IO with live updates, patient skipping, status tracking, and instant synchronization across connected clients.
- Designed RESTful APIs for authentication, appointment management, doctor profiles, and queue handling using Node.js, Express.js, and MongoDB.
- Integrated QR-based prescription scanning in the React.js + Tailwind CSS frontend to streamline pharmacy workflows.

Loan Approval Prediction using Machine Learning | [GitHub](#)

- Developed a loan approval classification model using Python and Scikit-learn; performed data preprocessing, feature engineering, and exploratory data analysis.
- Evaluated six ML algorithms (Logistic Regression, Decision Tree, Random Forest, SVM, KNN, XGBoost); selected XGBoost as the optimal model, achieving 98% accuracy.

CERTIFICATIONS

- **Data Science & AI Masters 2026 – From Python to Generative AI** — Udemy | *(Currently Pursuing)*
- **Introduction to SQL** — University of Michigan | [\[View Certificate\]](#)
- **Mastering Laravel Framework and PHP** — Board Infinity | [\[View Certificate\]](#)
- **Crash Course on Python** — Google | [\[View Certificate\]](#)

ACHIEVEMENTS & ACTIVITIES

- Represented a Jio-sponsored team in state-level cricket tournaments organized by the Gujarat Cricket Association (GCA) and participated in district-level matches under the Anand District Cricket Association (ADCA).
